

PULP & PAPER

PREMIUM SPREADER ROLL TECHNOLOGY

BY ANDRITZ FABRIC AND ROLLS

THE ULTIMATE IN WEB CONTROL

ANDRITZ Fabrics and Rolls delivers world-class bowed spreader roll performance with the largest product portfolio specifically designed for a variety of industrial applications. Whether your requirements are web smoothing, web widening, slit separation or more efficient control

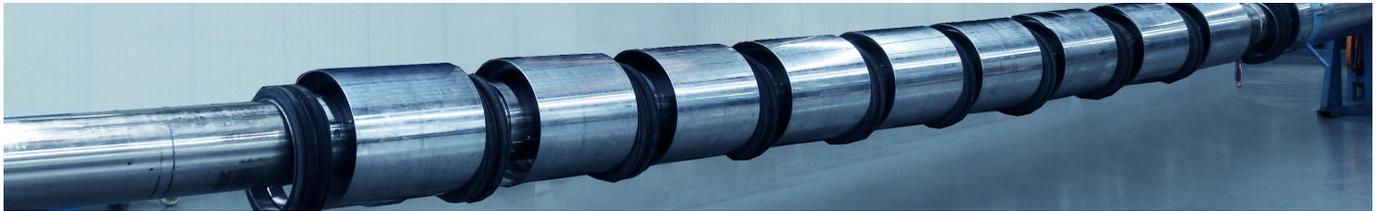

of your web, we have a product solution specifically for your machine including fixed and adjustable bow configurations. Additionally, our comprehensive suite of sleeves ensure your bowed spreader roll operates at peak performance in the harshest conditions. Our global network of specialized spreader

roll facilities are equipped to repair, rebuild, and upgrade your existing rolls for even greater performance. As the inventor of bowed spreader roll technology nearly a century ago, our unique products and application expertise will deliver best-in-class products, expertise and support for all your web control needs.

ANDRITZ

ENGINEERED SUCCESS

Innovative solutions from the pioneers of spreader rolls

GLOBAL FOOTPRINT

- 10 facilities around the world; Americas, EMEA, Asia-Pacific
- Global engineering expertise
- Global supply network with access to key components

EXTENSIVE REPAIR CAPABILITIES

- We repair most every brand
- Metric and imperial designs
- Upgrade/convert designs
- Optimize lubrication
- Restore roll to new condition

PRODUCT INVENTOR

- Market leader
- Innovators of unique technology
- Supplier for nearly a century
- Unique applications in a variety of industries

WIDE VARIETY OF SLEEVES

- Extreme wear resistance
- High temperature
- Chemical resistance
- Anti-static, release
- Steel clad, numerous treatments

LARGEST PRODUCT PORTFOLIO

- Diameters from 38 - 380 mm
- Lengths up to 10 m
- Wet, dry, high temperature
- Fixed and adjustable bow

APPLICATION EXPERTISE

- Analysis of application to determine optimal design and cover selection
- Paper, pulp, plastic, textile, metal foil
